The diagram illustrates a file dependency structure. At the top is a header file box (shaded gray) containing the path `/Users/mckinney27/doxy-testbed/lbann/include/lbann/data_store/data_store_merge_samples.hpp`. Below it are two source file boxes. The left box contains `/Users/mckinney27/doxy-testbed/lbann/src/data_readers/data_reader_merge_samples.cpp` and the right box contains `/Users/mckinney27/doxy-testbed/lbann/src/data_store/data_store_merge_samples.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header.
