

/Users/mckinney27/doxy
-testbed/lbann/include
/lbann/data_store/data
_store_merge_features.hpp

```
graph BT; A["/Users/mckinney27/doxy-testbed/lbann/src/data_readers/data_reader_merge_features.cpp"] --> C["/Users/mckinney27/doxy-testbed/lbann/include/lbann/data_store/data_store_merge_features.hpp"]; B["/Users/mckinney27/doxy-testbed/lbann/src/data_store/data_store_merge_features.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a header file box (shaded gray) representing `/Users/mckinney27/doxy-testbed/lbann/include/lbann/data_store/data_store_merge_features.hpp`. Below it are two source file boxes (white with black borders). The left box represents `/Users/mckinney27/doxy-testbed/lbann/src/data_readers/data_reader_merge_features.cpp` and the right box represents `/Users/mckinney27/doxy-testbed/lbann/src/data_store/data_store_merge_features.cpp`. Two blue arrows point from the bottom of each source file box to the bottom of the header file box, indicating that both source files include the header file.
