

lbann::generic_input
_layer::generic_input_layer

```
graph LR; A["lbann::generic_input_layer::generic_input_layer"] --> B["lbann::dataset::total_samples"]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text "lbann::generic_input_layer::generic_input_layer". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "lbann::dataset::total_samples".
