

lbann::local_response
_normalization_layer
::local_response_normalization_layer

```
graph LR; A["lbann::local_response_normalization_layer::copy"] --> B["lbann::local_response_normalization_layer"]
```

The diagram illustrates a copy operation. On the right, a white rectangular box with a black border contains the text 'lbann::local_response_normalization_layer::copy'. A blue arrow points from this box to the left, where a gray rectangular box with a black border contains the text 'lbann::local_response_normalization_layer'. This represents the transfer of data from a temporary copy to the main object.
