

lbann::protobuf_utils
::read_in_prototext_files

```
graph LR; A["lbann::protobuf_utils<br/>::read_in_prototext_files"] --> B["read_prototext_file"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text "lbann::protobuf_utils" on the first line and "::read_in_prototext_files" on the second line. A dark blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "read_prototext_file".
